

ROUND MOUNTAIN CO.'S ANNUAL REPORT

A report covering the placer operations of the Round Mountain Mining company, of Nevada for the past year was issued today to the stockholders by President and General Manager Louis D. Gordon. Three periods are included in the summary of realization. From March 1, 1916, to July 1, 1916, there were handled 142,600 yards of gravel that yielded \$48,176. The value per yard recovered was \$338—the cost \$1.396 and the net realization \$1.43. From July 13 to September 3, 1916, there were handled 18,150 yards that yielded \$36,413. The value per yard recovered was \$2,006 and the cost \$609, the net realization was \$1,397 per yard. On intermittent operations between November, 1915, and March 1, 1916, the company managed to extract 5272 yards of a value of \$9,233, the value per yard being \$1.746 and the cost \$1,023, leaving a net realization of \$723.

The marked decrease in cost of operating is due to the increased water supply secured through purchase of the Round Mountain Power and Water company several months ago. Up to this time there has been but a partial recovery represented in

the gross yield of \$48,176 from 142,600 yards of gravel. The bedrock cleaning has been made on only about one-eighth of the entire area hydraulicked and it is believed that the amount remaining is from \$20,000 to \$30,000. In addition there will be recovered from \$5000 to \$10,000 in the branch races and main tailing flume, which cannot be cleaned while active operations are in progress. It is believed that the total value recovered will approximate 50 cents per yard. An exceptionally dry season contributed to the decreased earnings of the company. Operations in 1917 will be conducted with many improvements calculated to obtain the maximum efficiency of the water supply and it is believed that by hydraulicking costs, already reduced to \$1.95 per yard, will be cut to 15 cents per yard. Operations in 1917 will be in territory that is already proven to have values of \$2 or more per yard.

The water rights and system of power and water company, together with other property, were purchased for \$120,000, of which \$30,000 has been paid, the balance due in three equal installments falling due annually in March.

AVIATOR BRINGS DOWN 30 ENEMY MACHINES

(By Associated Press.) PARIS, Oct. 18.—The newspaper Sporting says that it has learned from an authorized source that Captain Boelke, the celebrated German aviator, was severely wounded by a shell from a French aircraft. Recently Boelke brought down his thirtieth enemy machine.

OLD MAN AND SISTER BRUTALLY MURDERED

(By Associated Press.) BALTIMORE, Oct. 18.—A double murder was discovered late yesterday when the mutilated bodies of Andrew Frey, 50 years old, and his sister, Marie Frey, 55, were found near their home at Rosedale, Baltimore county. Apparently they had been lying in an out of the way place for several days.

An effort had been made to destroy the man's body by pouring oil on it and setting it afire. Evidently the house had been robbed of everything of value. The ground in front of the house was torn up, and a heavy log, bespattered with blood, lay at Frey's side. His skull and that of his sister had been fractured. There have been no arrests.

AUTOISTS FROM IDAHO

Two auto loads of people from Twin Falls, Idaho, arrived yesterday and registered at the Mizpah. They are en route to southern California. In the party are: Mrs. S. M. Boone, Mrs. A. M. Clift, Mr. and Mrs. A. V. Bebout, H. O. Milner and wife, Miss Truth Milner, Mrs. P. D. Neer, Miss Florence Neer and Wilbur Washburn.

SUPERDREADNAUGHT IS PLACED IN COMMISSION

(By Associated Press.) NEW YORK, Oct. 18.—The super-dreadnaught Arizona, one of the two most powerful ships in the United States navy, was put in commission at the navy yard here yesterday under commission of Captain John B. McDonald. The vessel is manned by 67 marines and 900 sailors, said to be considerably short of her full complement. The men were assembled from various ships.

The Arizona, a sister ship to the Pennsylvania, was constructed at the New York navy yard. She had a displacement of 32,567 tons, is 608 feet long and designed for a cruising speed of 21 knots. She has 12 14-inch guns and a secondary battery of 20 5-inch guns, and also carries two anti-aircraft guns.

JAPANESE FEELING IS FRIENDLY TOWARD U. S.

(By Associated Press.) ST. LOUIS, Oct. 18.—That the Japanese feel that the best interests of their country depend upon the preservation of friendly relations with the United States, Right Reverend H. St. George Tucker, bishop of Kyoto, told the delegates to the general convention of the Protestant Episcopal church. "The only possible cause of trouble will be the conviction of part of the Japanese that they were being discriminated against and their national honor involved. Even in regard to the question of immigration to this country the Japanese government has shown a willingness to meet the wishes of the United States by a so-called 'gentlemen's agreement'."

STATE MILITIA ARE STILL IN THE SERVICE

(By Associated Press.) BOSTON, Oct. 18.—The United States circuit court of appeals has ruled that members of the state militia were still in service for federal military purposes notwithstanding their failure to take oath under the national defense act of last June. This reverses the recent order of the federal district court. The case is considered as a test of the application of the new law upon which similar cases in other states depend.

DON'T BUY ANCIENT BREAD SHIPPED IN

I would not buy strange, dry, squeezed bread, when I can buy bread of superior quality in every respect. The Progress and Vienna Bakery bread is rich in flavor and is made of the choicest eastern flour, and is heavier and goes further than any imported bread. We are always ready for any order for pastry of any kind equal to that made in any city. We can serve a large banquet as easy as a small banquet.

FATIMA

A Sensible Cigarette

Comfortable—
that's why they're sensible.

As you've probably noticed, it is the keen, active-minded type of man who is particular to choose Fatimas. If you were smoking Fatimas, you would know why. You would find that Fatimas, more than any other cigarette, are comfortable while you smoke and after you smoke them.

Their delicately balanced Turkish blend makes them a sensible cigarette to smoke. Why not prove this for yourself?
